

How can you maximize your **PROFIT** by using **EFFICIENT** and **SECURED SOFTWARE**?

DiaAdmin

Secured, encrypted, untraceable data storage. Keeping track of stock movements, funds transferred, interest calculation. Building accounts, extensive profit reports and balance sheets. Creating a global overview of your business at the click of a button. These are just a few of the daily challenges faced.

Since 1988 DiaAdmin software allows you to enter, track and report ALL transactions made in an agile, flexible and user friendly manner!

The DiaAdmin software is the result of an ongoing synergy between us and our clients. Still today we are convinced that this is the only way to build a program that takes diamond administration to a higher level. Today, changes are made and new features are added because our software is a representation of the market situation: always changing, improving and re-inventing itself.

One of the most important values of our company are our clients. A tremendous amount of innovations were created on their demand. It is thanks to our clients that we can stay ahead of market requirements.
